BOA VISTA ISLAND

The island, known as the island of beaches and dunes. It has 55 km of beautiful white sand beaches and emerald green water. It is a less developed, but more beautiful version of Sal.

Boavista is only a 12 minute flight from Sal, which has an international airport. A new International airport has been built on Boa Vista and flights direct from UK are from Stanstead.

Boavista's coast provides the ideal location for the tourist's leisure time, either for a swim in crystal clear waters or for sports like windsurfing, scuba-diving and fishing.
